To be complete, an occupation return must state:

14 and 23.—The trade, profession, or particular kind of work done.
15 and 24.—The industry or business in which the work is done.
16 and 25.—The month and year the person last worked at the occupation.
17 and 26.—The number of years the person followed the occupation.

In stating the occupation, avoid the use of such indefinite terms as "employee," "worker," "operative," etc. Find out the particular kind of work done and return that, as *spinner, weaver*, etc.

In stating the industry or business, avoid the use of such general terms as "store," "factory," "mill," etc. State the particular kind of store, factory, mill, etc., as *grocery store, soap factory, cotton mill*, etc.

Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as *civil engineer, mechanical engineer, mining engineer, stationary engineer*, etc. Avoid the term "laborer" when a more precise statement of occupation can be secured. Do not use the word "mechanic," but give the exact occupation, as *carpenter, painter, machinist*, etc. Distinguish carefully between *retail merchants* and *wholesale merchants*. A person who sells goods should be called a *salesman* and not a *clerk*.
